Memo No...../658/Canal/BODHI/

Bhopal, Dated: /12/2020

To,

Chief Engineer,

.....
Water Resources Department,
Madhya Pradesh

Sub:- Flouting of MPWRD Guidelines: MS Water Pipeline DTM PU Coatings by Contractors.

Ref:- AMCHEM Products Pvt. Ltd.'s Memo No. 0002, Dated: 09/11/2020

It has been reported to this office that some companies are offering and undertaking site applied Polyurethane Coating at prices which do not even cover the cost of Polyurethane material. This is resulting in sub standard work. For this hand held blasting/spray Systems are used which result in very poor surface preparation.

Specification for Polyurethane Coating is issued vide BODHI letter dated: 18/03/2020 and is available on Departmental Website wherein all procedures are specified and Para 5 of said specification deals with surface preparation, Para 4 with coating material properties & Para 2 with coating operation.

It is requested to adhere to specification strictly so that efficient performance is ensured and designed project life can be achieved and purpose of providing such specification is not defeated.

(G.P. SONI)

Chief Engineer, BODHI
