विषय :- SMS Based Reservoir Level Monitoring System - Daily SMS प्राप्त नहीं होने के संबंध में।

—00—

दिनांक 03.05.2018 की स्थिति में EIMS के SMS Based RLM Module की समीक्षा में पाया गया कि कुल 164 जलाशयों में से 18 जलाशयों के जलस्तर ही SMS द्वारा अपडेट हुये हैं। SMS Based RLM Module की समीक्षा का सार निम्नानुसार है—

1. माह मई में अपडेट होने वाले जलाशयों की संख्या— 51
2. विगत 7 से 8 माह से अपडेट नहीं होने वाले जलाशयों की संख्या— 14
3. विगत 4 से 7 माह से अपडेट नहीं होने वाले जलाशयों की संख्या— 38
4. विगत 1 से 4 माह से अपडेट नहीं होने वाले जलाशयों की संख्या— 38
5. विगत 1 माह से अपडेट नहीं होने वाले जलाशयों की संख्या— 20

यह स्थिति अत्यंत खेदजनक है। प्रतीत होता है कि आपके द्वारा जलाशयों के जल स्तर की सतत मॉनिटरिंग नहीं की जा रही है एवं जलाशयों के जलस्तर अपडेट नहीं होने के कारण SMS Based RLM Module की उपयोगिता प्रतिपादित नहीं हो पा रही है।

कृपया सुनिश्चित करें कि आपके अधीन के रजिस्टर्ड सभी जलाशयों के जलस्तर प्रतिदिन 10 बजे के पूर्व अपडेट हो जायें। सभी SMS मोबाईल नं. 7898916241 पर पूर्व से निर्धारित फार्मेट में ही किये जाने हैं।

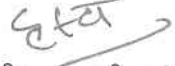

यहां इस बात का उल्लेख करना उचित होगा कि जलाशय का जलस्तर LSL से नीचे हो अथवा वर्षा नहीं हुई हो, फिर भी प्रतिदिन कम से कम एक बार जलस्तर का SMS किया जाना आवश्यक है।

रजिस्टर्ड मोबाईल धारक को SMS करने के एवज में प्रतिमाह रू. पचास मात्र की प्रतिपूर्ति करने के राज्य शासन के निर्देश हैं।

इस संबंध में समस्या समाधान हेतु मोबाईल नं. 9893219413 पर वेबमैनेजर से संपर्क किया जा सकता है।

सहपत्र:-

1. समीक्षा का विवरण

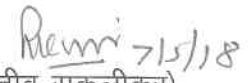

(राजीव सुकलीकर)
